Motel guest app: QR codes in every room, set up for you

ABN 61 906 836 215 fritz@tftechservices.com Melbourne, VIC Demo: tftechservices.com/demos/motel/

WHAT YOUR GUESTS GET

Guests scan the QR code in their room and have everything on their phone. No app to download.

- **Your room:** Wi-Fi, air conditioning, TV, check-out time and late check-out requests
- **Food & ordering:** breakfast and room-service menu, nearby takeaway, Uber Eats, DoorDash and Menulog
- **Requests to reception:** fresh towels, room cleaning, breakfast orders and maintenance, sent straight to your inbox
- **Pool & laundry:** opening hours, rules and gate codes behind a guest PIN
- **Safety:** 000, nearest exit and muster point, extinguishers, defibrillator, what to do in a fire or pool emergency
- **Feedback:** a private form to the manager, so you hear about problems before they reach online reviews

HOW IT WORKS

1. **You send your information.** Our checklist covers reception hours, menus, pool rules, floor plan and photos. Short notes are fine.
2. **We build your guide.** Usually within 10 business days. You check it and ask for changes.
3. **Stickers arrive.** 50 waterproof QR stickers are printed and delivered to your motel, with a placement guide.
4. **You go live.** Requests and feedback arrive by email. We keep the guide hosted and up to date for A$30 a month.

WHY T&F TECH SERVICES

- **Done for you:** most guest-app software expects you to write and set it up yourself; we do it all.
- **Low monthly cost:** A$30 a month, compared with per-room pricing that can reach A$100+ for a 30-room motel.
- **Your guide, your content:** if you ever leave, we hand over your guide's files.
- **Local and bilingual:** a Melbourne business, with English and German available.
